ETTRICH

First highly successful and well-attended concerts have already earned Ettrich a reputation as a band to watch – a "hidden gem" – early in their career. With a steadily growing fanbase and the release of their debut EP, the five metalheads from Halle (Saale) are aiming for the stars.

Through unconventional methods and fresh ideas, they craft songs in the classic heavy metal mold—tracks that stick in the minds of future generations while preserving the heavy metal tradition.
